Career Objective

Motivated Data Science fresher with a strong interest in machine learning and data analysis. Skilled in Python, data preprocessing, and exploratory data analysis, with basic knowledge of machine learning algorithms. Seeking an entry-level opportunity to apply data science fundamentals, enhance technical skills, and contribute to data-driven solutions.

Projects

- **Diabetes Prediction Web Application (Streamlit + Machine Learning)** [\[Link\]](#)
 - Developed a **Diabetes Prediction Web Application** using **Streamlit** and **Machine Learning** algorithms to predict diabetes based on user health inputs such as glucose level, BMI, age, and blood pressure.
 - Implemented data preprocessing, feature selection, and model training (e.g., Logistic Regression / Random Forest), achieving high prediction accuracy and deploying the model through an interactive web interface.
- **AutoML Studio** [\[Link\]](#)
 - Developed and deployed an interactive AutoML web application enabling **data preprocessing, feature selection, model comparison, and real-time predictions**.
 - Implemented automated classification and regression pipelines with multiple ML algorithms, improving model selection efficiency.

Skills

- **Programming Languages** : Python
- **Libraries** : NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Machine Learning** : Regression, Classification, Clustering, Model Evaluation
- **Data Analysis** : Data Cleaning, EDA, Feature Engineering
- **Tools** : Jupyter Notebook, PowerBI, Streamlit, Excel
- **Soft Skills** : Teamwork, Communication, Problem Solving, Adaptability, Critical Thinking

Education

Institution	Degree	Year
Gujarat Technological University, Ahmedabad	Bachelor of Engineering in Computer Science & Engineering (Data Science)	2023-2027
