

KRISHNA GEDIYA

(Data Science & AI)

+91-9825735570 | krishnagediya5@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#) | Ahmedabad, Gujarat

Career Objective

Motivated Data Science fresher with a strong interest in machine learning and data analysis. Skilled in Python, data preprocessing, and exploratory data analysis, with basic knowledge of machine learning algorithms. Seeking an entry-level opportunity to apply data science fundamentals, enhance technical skills, and contribute to data-driven solutions.

Projects

- **AI-Based Diabetes Risk Prediction Dashboard** [[Link](#)]
 - Developed a machine learning model (SVM) to predict diabetes risk with ~77% accuracy using scikit-learn.
 - Built an interactive web dashboard using Streamlit with real-time input and prediction features.
 - Implemented data preprocessing, feature scaling, and health parameter analysis with user-friendly insights and recommendations.
- **AutoML Studio** [[Link](#)]
 - Developed an end-to-end AutoML web application using Streamlit and Scikit-learn to automate data preprocessing, feature selection, and model training.
 - Implemented multiple machine learning algorithms with automated model comparison and selection based on performance metrics (Accuracy, F1-score, RMSE, R²).
 - Designed an interactive user interface for real-time predictions, data visualization, and downloadable trained models, enabling a complete no-code ML workflow.

Skills

- **Programming Languages** : Python
- **Libraries** : NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Machine Learning** : Regression, Classification, Clustering, Model Evaluation
- **Data Analysis** : Data Cleaning, EDA, Feature Engineering
- **Tools** : Jupyter Notebook, PowerBI, Streamlit, Excel

Education

Institution	Degree	Year
Gujarat Technological University Ahmedabad	Bachelor of Engineering in Computer Science & Engineering (Data Science)	2023-2027
Kaushal vidyabhavan	Higher Secondary(12 th)	2022-2023

Certificates

Data Analytics Job Simulation — Deloitte (Forage) | March 2026 | [Credential](#)

- Completed practical tasks in data analysis and forensic technology using real-world business scenarios.
- Developed skills in data interpretation and data-driven decision-making.

Data Science with Python — DevTown | April 2026 | [Certificate](#)

- Learned Python programming, data analysis, and working with real-world datasets.
- Developed skills in data cleaning, visualization, and basic machine learning concepts.
